Hans Christian is celebrated for his great fairytales and stories. His books have been published in 145 different languages, for instance Arabic, Greenlandic, Thai, Serbian and Zulu! In other words; he is the writer in the whole wide world whose work has been translated into most different languages!

On the occasion of his 200 year birthday, Scanbox launches their own production of Hans Christian Andersen's most popular fairytales, narrated by the actor Bjarne G. Nielsen. By now, for 20 years, he has acted the part of H.C. Andersen...in fact he is almost Hans Christian Andersen!

One of the locations for the recordings of the famous fairytales is the monastery of Børglum in the Northern part of Denmark, where Hans Christian Andersen himself once lived. The fairytales come alive through magnificent puppet theatre and narration – exactly like when the great writer was alive himself. The series contain in total 20 fairytales on 6 DVD's.

6 LUXURY DIGIPACKS INCLUDING DVD, CD AND STORY BOOK

6 AUDIO BOOKS
